Uncle Sam Says

What will your today's harvest look like 10 years from today? Will it be just a memory 10 years old? Or will your golden crops ripen into a better farm, the best education in the world for your youngsters, or perhaps well-earned leisure for you and mom? Now's the time for you to plant dollars in United States Savings Bonds for future harvests. Four dollars for three dollars at maturity, and the deal backed by the United States Government — were can you beat Series E Bonds for an investment these days?
